

National Correctional Industries 2014 Conference

The 2014 National Correctional Industries Association's Annual Training Conference was held in New Orleans, Louisiana on April 13th-16th. This informative conference featured networking opportunities, vendor exhibits and informative workshops.

Each year, NCIA facilitates a conference to provide an opportunity for correctional industries across the country to learn and share best practices. This year's conference featured sessions highlighting technology and the changing market place, team building, customer service strategies and re-entry services. MCE attends NCIA's conferences each year and looks forward to learning from other correctional industries and hearing about additional programs.

Every year, NCIA makes a special effort to acknowledge individuals who have demonstrated extraordinary skill and leadership in their field of expertise. Lida Poole, MCE's Director of Marketing, was honored at this year's conference. Lida made the 2014 NCIA Honor Roll for her Department's achievements and continued success.
